THE BRITISH COLUMBIAN.

NO. 45. VOL. 7.] NEW WESTMINSTER, SATURDAY, JULY 20, 1867. [PRICE 6d. or 12 cts.

THE TEBBAD.

The deserts near the Oxus, when swept by the Tebbad or fever wind are the tomb of thousands. The light sandy dust which gives no echo to the camel's tread, is then moved with such terrible effect, that one station bears the name of Adana Kyrylgan, "The place where men perish," and a single glance towards the horizon, shows that the ill omened name is not unadvisedly given. An ocean of sand spreads as far as the eye can reach, raised into hills or waves, or leveled into a plain at the sport of the wind.

No bird wings its way through the air, no animal prowls along the surface where no blade of grass is seen. The bones of the human victims alone meet the eye, and these the travellers gather together as guide marks. The Tebbad, or east wind, in other parts is terrible enough, and bringing disease in its train, but on these arid fever plains it is the very angel of death. The caravan pushes on with its supply of water, but this often gives out and some die of thirst, for no one can be generous enough to spare a drop for another. It is life itself.

"Vambery" crossed this desert, and about noon on the fifth day, when almost maddened with thirst, headache and fever, he began to discern the mountains of Khalata amid the clouds that enveloped them. The sight rallied his fainting strength, for he felt it diminishing rapidly, but haste was out of the question. The sand grew finer and deeper, at each step sank the feet of their beasts. While all looked eagerly for some hut, some trace of human habitation, the Kervanbashi and his people pointed to an approaching cloud of dust, and told all to dismount without delay. The camels, more prescient than man had already felt the coming of the Tebbad. After a cry that seemed the very voice of despair, they fell on their knees, stretching out their necks on the ground and endeavoring to bury their heads in the sand. Behind them as a rampart, knelt the human members of the party. The wind passed with a dull shudder, enveloping them in a dust two inches thick. The first grains of sand tell on the body like a shower of fire. Had it struck them six miles further on, all would have perished. Even when they escape, the mere passage of the wind produces fever.

A ROMAN CATHOLIC JUDGE ON KING WILLIAM III.—At the Tyrone Assizes, Ireland, an action for libel was brought against the *Northern Whig* newspaper. The libel grew out af an election for the historic city of Derry. Judge Keogh, a Roman Catholic, presided, and in charging the jury, he used the following language:—Mr. McCausland, in his address, has refered to the city of Derry, as one famous for historic deeds in days gone by. I, said the Judge, agree with Mr. McCausland that the deeds done in Derry did materially conduce to secure civil and religious liberty in this land; and I have a high appreciation of the monarch in whose reign these events occurred, and whom Edmund Burke admirably describes as "our glorious deliverer and an enemy of persecution,"—and those who think he was other than this know not a thing of his character. In his reign was fully secured the liberty of the subject, trial by jury, and from him we derive the invaluable right of the liberty of the press. We are parting with many things now-a-days,—whether for better or worse I will not say; but the time may come when we have no other safeguard than that which is centred in a free press."

Railways in India are being rapidly pushed forward. Contracts for upwards of 400 locomotives are now in course of execution in England for various Indian railways.

A BIG AMERICAN GUN.—On the 15th of April another monster 20in. gun was successfully cast at Pittsburg, Pennsylvania; 140,000lb. of iron being placed in three furnaces, which were lighted before daylight in the morning, and tapped about four hours afterwards. The molten metal ran for 27 minutes into the mould, during which time a stream of cold water ran through the hollow core at the rate of 20 gallons a minute. When taken from the mould it will weigh in the rough state about 140,000lbs., and when finished 95,000lbs. Its greatest diameter will be 7ft. 10in.; the bore 20in. The length of the gun will be 15ft. 9in., and of the bore 13ft. 1in. It is intended to fire a solid shot weighing 1,000 lbs., with charges of powder varying from 60lbs. to 100lbs. each.

RAILWAYS IN INDIA.—Already, before their completion, not ten years after the death of their great designer the Marquis of Dalhousie, our nine Indian railways yield a revenue of four and a half millions sterling, more than the whole revenue of Mexico, nearly that of Brazil, nearly twice that of Canada, and more than twice that of Denmark; in three years, at the present rate of progress, Indian railways will yield as much as the whole state revenue of Belgium.—*Calcutta Letter.*

Garibaldi, whose title to public admiration has hitherto partly rested on his modesty, has put forth a claim, it is stated, to the governorship of Rome. To that office he represents himself as having been elected by the Roman people in 1848-9, and from which high estate he denies that he has ever been legally deposed. In the eyes of Garibaldi, the Pope is a mere usurper, and his position as a temporal sovereign logically untenable.

The population of the Sandwich Islands, according to a census taken in 1866, is 62,959. The foreigners foot up 4,193. The Chinese number 1,205, and four-fifths of the remainder are Americans. The native population has decreased 14,000 in fourteen years.

Nitro-glycerine is cutting the Pacific railroad tunnel through the summit of the Sierra Nevada at the rate of fifty feet per week, and by midsummer fifty miles of road will be added to the ninety-four already in operation at the California end.

The *Little Times*—Captain Mayne Reid's new London daily—understands on good authority, that the Russian Government is ready to subsidize the Russo-American Telegraph line to an extent that will lead to the resumption of the undertaking.

It is said that an Under-Secretaryship for Scotland is actually created or to be created under the Home Office, and that Sir James Fergusson, M. P. for Ayrshire, is to be the first holder of the office.

It is said that the Emir of Bokhara has invited English co-operation for the re-organization of his army, and has broken off relations with the Russian authorities. The Emir is fortifying Samarcand.

King Victor Emmanuel has set an example of economy in the present financial crisis in Italy by renouncing the sum of 4,000,000 lire of his civil list.

An enterprising English firm offers to pay the Colombian national debt of $30,000,000 for a ninety-nine years' lease of the Panama railroad, at $500,000 a-year.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. A. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration of the uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attended by ordinary symptoms in his case, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Kopp, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

SATURDAY, JULY 20, 1867.

THE FATAL LEAK.

The idiotic demagogue who brays every morning (Sunday happily excepted) through the columns of the only surviving newspaper in Victoria devotes the leaders of three successive impressions to the most rabid and wanton abuse of Governor Seymour and Mr. Birch, especially the latter. As a rule, when vulgar agitators are rampant,

"The noblest answer unto such
Is kindly silence when they brayl."

But there are occasions when it is necessary to deviate from this rule; and we are disposed to treat the present as one of them. With the three leaders before us, we have not the most remote intention of inviting our readers to wade through the slough of something infinitely worse than milk and water. When Opie was asked how he mixed his colors, he answered, curtly enough, that the vehicle he used was that soft mass or viscus inclosed in the cranium, and generally supposed to be the seat of the emotions and the will. "I mix my colours with brains, Sir," said the "Cornish boy in tin-mines bred." "With brains, Sir;" a marvellous answer, look you, for with or without constitutes all the difference in the world. As a substitute for brains, a commodity which he cannot command, our contemporary is fain to resort to a hellish compound the recipe for which runs as follows:—

"Eye of newt and toe of frog,
Wool of bat and tongue of dog;
Adder's fork and blind-worm's sting,
Lizzard's leg and owlet's wing;
Fillet of a fenny snake,
In the caldron boil and bake;
Round about the caldron go,
In the poison'd entrails throw,
For a charm of powerful trouble,
Like a hell-broth boil and bubble,
With double, double toil and trouble
Fire burn and caldron bubble!"

Without waiting to point out the very questionable compliment paid to his Excellency the Governor, in the awkward attempt to place upon the shoulders of his first officer the sole onus not only of what he is pleased to designate as the "tortuous and slimy policy" of the Government, but as well that responsibility which naturally attaches to carrying the policy of the Executive into effect; without the slightest pretension to a knowledge of the crime,

Horrible and awful
Which even to name would be unlawful,

mysteriously alleged to have been committed between the Governor and his first officer, and respecting which our contemporary darkly hints that he will

"A tale unfold whose lightest word
Will harrow up the soul—freeze the young blood—
Make each particular hair to stand on end
Like quills upon the fretful porcupine;"

without even attempting a task so utterly supererogatory as that of exposing the wild and discordant vagaries of our contemporary, who seems on system to make every argument(?) he propounds commit suicide, and who, by long impunity for his outrages on logic and decency, has become hardened in paradox and licentiousness, we hasten on to probably, after all, the only item worthy of notice in the voluminous "concatination accordingly" of vulgar abuse. Our contemporary, in speculating upon the account Mr Birch will render of his stewardship at the Colonial Office, says:—"It will probably be urged by "him that the finances of the Colony "have been sacrificed to the Victoria "merchants, by their stocks on hand "entering the Fraser free of duty; "but an investigation of the traffic re- "turns and of the quantities of goods "shipped from Victoria, coupled with "the corresponding depreciation of "the road tolls and of the internal "revenue, will at once demolish this "plausible but fallacious plea." It is not often that we are fortunate enough to have the weathercock journalist of Victoria sufficiently settled to pin him to any given proposition. His present allusion to the depreciation of revenue and its causes demonstrates at once his utter recklessness of assertion, and gross ignorance of the "situation." No better test than that of the Road Tolls of last year and this can possibly be applied in disproof of the repeated assertion made at Victoria that the alarming falling off in this year's revenue is not largely, not to say wholly, attributable to the circumstance of the plethoric stocks, boarded up in Island, in anticipation of union being allowed to evade duty of Customs. We are glad, therefore, that our contemporary should unwittingly challenge us to produce that very class of evidence which we ourselves, would have selected. To the proof, then. During the quarter ending 30th June, 1866, the Road Tolls amounted to $19,793 70. During the corresponding period of the present year they amounted to $12,614 01. Beaton! shouts our antagonist. Hold on; you overlook, as usual, a most vital point. The amount of flour entered at this Port during the abovenamed quarter of last year was 717,400lbs. It would probably be a very moderate estimate to say that of this quantity two-thirds passed the toll-gates, the other third being consumed in the lower country. Proceeding upon this assumption, the reasonableness of which even our contemporary will not attempt to question, we have the sum of $11,965 34 to be added to the $12,614 01 derived from Road Tolls during the Quarter ending 30th June of this year; for it must be borne in mind that while all the flour consumed in the interior last year paid Road Tolls, none of it pays those tolls this year. How stands the question now? Add $11,965 34 to $12,614 01, and we have $24,579 35, have we not? Out of the mouth of thine own witness do we condemn thee, O Higgins! Thus taking the Road Tolls as a test, it would appear that, so far from any imaginary falling off in the trade of the mainland being the cause of decrement to the revenue that trade has perceptibly increased. Unless, therefore, our contemporary is prepared to show a tremendous falling off in the trade of his own little Island the truth of what we have always asserted—that the falling off in the present year's revenue is solely attributable to the unpardonable blunder and flagitious public wrong of allowing Victoria stocks to evade Customs' duty—is established beyond the possibility of successful contradiction. Mr. Birch may, therefore, well tell the Colonial Minister "that the finances of the Colony have been sacrificed to the Victoria merchants."

SATURDAY, JULY 20, 1867.

FROM CARIBOO.

The steamers Lillooet and Onward arrived from Yale yesterday, bringing a considerable number of passengers, and a Cariboo Express and mails. We have before us files of the *Sentinel* of the 4th, 8th and 11th insts. from which we compile the following brief summary:—

MINING INTELLIGENCE

WILLIAMS CREEK.

No marked improvement in the condition of matters on the lower part of the Creek was perceptible, and it was feared that mining operations would not be resumed for two or three weeks longer. On the upper portion of the Creek the large expenditure of labor was being rewarded. The following may serve as instances:—Jenny Lind co. has found ground that will pay good wages; Casket co. making over wages; Wilson co. washed for week $1060.; Tennessee co. washed up for the week (2 mens' labor) 50 ozs.; Six-Toed-Pete co., washed up for the week 30 oz.; Davis co., washed up for the week 110 ozs.; Aurora co. do. 45oz.; Borealis co. do. 47oz.; Forest Rose co. do. 45oz.; Raby co. do. 40oz.

STOUTS GULCH.

The Alturas co. continues to yield largely. The wash up for the week was 184 oz. Jenkins co. cleaned up 40 oz. The Taft Vale co. having got their shaft cleaned out, will begin washing this week. Mucho Oro co. took out 20 oz. for the week.

CONKLINS GULCH.

The Ericeson co. made something over wages and expenses last week. The United co. cleaned up for the three days up to Thursday last, 105oz.

SNOW SHOE CREEK.

Twelve white men and twenty Chinamen are working here; Scott & co. are about ready to hydraulic; the remainder of the companies are taking out but very little gold, if any. On

KEITHLEY'S CREEK.

There are twenty-two white men and sixteen Chinamen. Among the former, about one-half are taking out more or less gold; while the other half are merely prospecting.

LATER.

From *Sentinel* of 11th:—Somewhat of an excitement was felt yesterday in consequence of the prospects obtained by the Moonlight Co., in Conklin's Gulch; they were reported to have washed out $21 from three buckets of dirt. The Indian Queen Co., immediately below them, got as high as $18 to the pan. This will give a fresh impetus to prospecting on the gulch.

The Grouse Creek Flume Co. are reported to have cleaned up 70oz. yesterday out of the ground in dispute between them and the Canadian Co.

The Cornish Co., in the rear of Richfield, cleaned up 90 ounces for the week ending Sunday last.

The Raby Co. found a nugget last Tuesday which weighed $90

RUMOR CONFIRMED.

The rich strike, of which a rumor reached us last week, on a tributary of Willow River, (Mosquito Creek) is confirmed. A shaft was sunk by a company of Cornishmen, from the bottom of which 33 ounces were washed out. The whole creek, which is not very long, has subsequently been staked off.

DEATH OF HAZELWOOD.—It is with regret that we announce the death of George Hazelwood, the man who received serians injury at a logging camp nearly three weeks ago. The bruised limb was successfully amputated a couple of weeks ago, and appeared to be doing well; but the whole system received a shock at the time of the accident from which it never recovered. He was in a state of unconsciousness during eight days preceeding his death. Deceased, although a native of England, had spent a considerable portion of his life in Canada, and came to this place in 1859, where he continued up to the time of his death. He was a sober and industrious man.

The Viceroy of Egypt is the richest man in the world. He owns a fourth of the entire soil of the country.

THE RIFLE MATCH.

While these territories formed separate colonies, intercolonial matches between the Island and the continental Rifle companies were not of unfrequent occurrence. Out of four contests the metropolitans were victorious thrice. The present match, the first since the union of the colonies, gives the Victorians another step towards retrieving their thrice lost laurels. The Victorians owe their victory yesterday less to their own good shooting than to the bad shooting of their opponents, as is amply manifest from the score, no more than a mere abstract of which we are enabled to place before our readers. Such, however, are the "chances of war" and we congratulate our Island friends on the result. It is only fair to the New Westminster Volunteers, however, to mention that the absence from the city of many of their best shots had its share in this untoward result. The following is an abstract of the score:—

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria last evening. His Excellency Governor Seymour and his Private Secretary, Mr. Maunsell came up by her. His Excellency was not expected and he managed to get off unobserved by the crowd, and, consequently, without the hearty cheers which would otherwise have welcomed his arrival.

TROUBLE BREWING.—The Canadian co. vs. the Grouse Creek co. had their appeal case argued before Mr. Beeble on the 4th inst. Mr. Beeble decided that as the decision of the Commissioner was upon a matter of fact he had no power to disturb it. We understand the Canadian co. have declared their determination to hold their ground in defiance of the decision.

ATTEMPTED SUICIDE.—A native woman, resident in this city, attempted to end her miserable existance, on Wednesday night, by cutting her throat with a knife. Although still lingering, the self-inflicted injury is of such a serious nature as to render recovery extremely improbable.

ANOTHER SPAR SHIP.—We understand Captain Stamp has chartered the ship Nation's Hope to take a cargo of spars to Java. She is now on her way to San Francisco with a cargo of coal from Nanaimo, and will immediately return to Barrard Inlet for the spars.

PERSONAL.—Mr. Grady goes up to Yale this morning with the intention of remaining a week there. Mr. Grady has had a large number of patients here, and has given very general satisfaction. We can conscientiously recommend him to any of our Yale friends who may stand in need of his services.

MUTTON FOR THE MINERS.—The str. Lillooet took a drove of 300 sheep up to Yale on Wednesday. They were brought in by Mr. Moore, of San Juan Island, and are destined for Cariboo.

ARRIVAL OF THE VICTORIA TEN.—The Leviathan, in charge of Capt. Cooper, arrived on Thursday evening, having on board Capt. Pearse and his Ten, accompanied by their Band.

THE VOLUNTEER SUPPER.—The New Westminster Volunteers entertained the Victoria Ten at the Colonial Hotel last evening. Thirty-eight sat down to a sumptuous supper.

THE WEATHER still continues wet, occasional heavy showers and cold nights tend to retard the ripening of the crops.

TELEGRAPHIC.

EASTERN STATES.

MOBILE, July 1.—Five freedmen have been appointed on the police.

FORTRESS MUNROE, July 5.—Accounts of destitution among the poorer classes in North Carolina are constantly arriving. No doubt intense suffering for want of food prevails.

Three negroes entered the house of Reyes Foster. After robbing it they murdered Mr. and Mrs. Foster, their daughter and infant, and fired upon the younger daughter, who was escaping with another child, wounding the daughter and killing the child. The assassins escaped.

SAVANNAH, July 7.—E. J. Westmorland, British Consul at Brunswick, was killed by Captain Martin, on the 5th inst. The deceased had only been married four hours. Martin was arrested. There is a great mystery in regard to the affair.

NASHVILLE, July 6.—A political meeting was held yesterday at Franklin, Tennessee which was addressed by Trumble and other radical candidates. The meeting proceeded without interruption; but after adjournment a disturbance commenced. A delegation of colored loyal leaguers was fired on by a party of white and colored conservatives. The fire was returned. In the melee one man was killed and eight whites and eighteen blacks were wounded, three mortally.

The blacks were much exasperated and threatened to renew the fight, but were prevailed upon to desist. Each party charges its opponents with the responsibility of the affray. The conservatives say that the colored leaguers opened the fight. The radicals declare they had been previously and repeatedly assailed, and were armed in self-defence.

A company of soldiers was sent to Franklin. All is quiet again. An official investigation will be made.

NEW YORK, July 2.—The *Evening Commercial* says the President has tendered the Governorship of Walrussia to Senator Stark, formerly of Oregon.

Schenck offered a resolution referring to Mexico, and endorsing the execution of Maximilian.

Wood denounced the act as barbarous and the resolution as disgraceful.

The House refused to suspend the rules and receive the resolution.

July 8.—The *Herald's* New Orleans special dispatch says the Raleigh sailed for Havana with ten Austrian officers from Vera Cruz. The Austrians avow their intention to remove the remains of Maximilian. They will remain in Havana until they have an opportunity to join some Maximilian chieftain. The enemies of Juarez declare that a few days will see a powerful chieftain at the head of a large anti-Juarez party, then they will return to Mexico.

July 6.—The *Herald's* New Orleans special says the fillibustering furore with the watchword "on to Mexico!" prevails in all circles, Federal and Confederate. At the anniversary dinner at the St. Charles Hotel ex-Gov. Weller, of California, gave as a sentiment, "on to the Halls of the Montezumas," which was received with applause.

July 2.—The *Tribune* says the shooting of Maximilian, in defiance of the civilized world, is a crime to America. It is an insult. We gave Mexico national life, and in return she spurns our counsel of mercy.

The *Herald* justifies the shooting. The pressure on Juarez was national and irresistible.

The *Times* says it was murder—one of the scores of murders marking the triumph of faction. It bodes ill to the republican government of Mexico.

The *World* says the execution was unnecessary, but finds no fault with Mexico for resisting foreign entreaties.

July 5.—Judge Wayne, of the Supreme Court, died at Washington this afternoon, of typhoid fever.

WASHINGTON, July 14.—A veto of the Reconstruction Bill is expected on Tuesday, when the Bill will be passed over it and Congress adjourned.

NEW YORK, July 15.—The *World's* special says that the English and French commanders of the Pacific squadrons, remonstrate against a Yankee war ship being stationed at the Sandwich Islands. The Government has not withdrawn her but has ordered another to join her. A strong Pacific interest is pressing the ratification of the Sandwich Island's treaty at this session.

Seward publishes a letter from the Americans residing at Victoria, dated April 20th, congratulating the country on the purchase of Alaska. The names are headed by the American Consul, Allen Francis, Esq.

The *Herald's* Buenos Ayres correspondence says that the cholera has disappeared. The epedemic carried off sixteen thousand people in forty days.

Bokhara dispatches say the Russian troops stormed the entrenched camp at Kokhand, in Bokhara, and gained a great victory.

EUROPE.

PARIS, July 3.—C. Perkins, Lawrence Smith, Smith B. Ruggles, Godwin Barney, E. Powers and Chickering, have been created Knights of the Legion of Honor.

The Paris Exposition gives sixty grand prizes; nine thousand gold, thirty-six hundred silver, and five thousand bronze medals, and nine thousand honorable mentions. There were sixty thousand exhibitors.

WASHINGTON, July 1.—The latest official accounts from Crete, of June 4, contain confirmation of the reported victory of Omar Pasha, said to have occurred June 23d.

According to the last advices the Turks attacked the Greeks with their whole army on June 1st. From the fact that the Turks maintain obstinate silence in regard to the issue of the battle, it is inferred that they were badly beaten.

NEW YORK, July 2.—The *Herald's* Paris special says the display yesterday was most magnificent. Seventeen thousand persons were present, dressed in national costumes. The orchestra was composed of 1200 musicians. The Emperor distributed medals in person to only one. The Emperor shook hands with Hughes, the inventor of the printing telegraph. The Czar awarded the gold medal for fine horses. Napoleon awarded the medal for model lodging houses.

PARIS, July 15.—The great regatta during the past week closed on Saturday. The Western Club, from St. John, N. B., rowing four-oared boats, two international prizes, competing with three Oxford and two London boats of the same class.

The *Herald's* Paris correspondent says, that under the decision of the recent monetary conference, it is understood that the United States will reduce the value of the gold doller to five francs, and that France will coin pieces of the value of 25 francs. England, by a slight reduction in the value of the sovereign, will bring it to the same standard; thus virtually making the American dollar the unit for gold.

July 15.—The trial of Berigowski, for the attempt to assassinate the Czar, resulted in a verdict of guilty with extenuating circumstances.

July 13.—Since the capture of the city of Mexico nothing has been heard of Dano the French Minister. Napoleon has announced his intention to send a strong fleet to Vera Cruz, retake Dano, and resent the indignity if any has been offered.

Souper, the secretary of State, has officially notified the Corps Legislatif that the American Government has refused to surrender the fraudulent bankrupt Oliver.

LONDON, July 15.—A prominent Fenian, supposed to be General Farrell, was arrested in this city last night and sent to Dublin for trial.

In the House of Commons last evening the Reform Bill was ordered to the third reading.

The Government denies that any troops have been sent to Abyssinia to rescue the English captives; but asks for authority to employ Sepoys for the expedition.

BERLIN, July 15.—The Prussian Government is taking steps towards the formation of a fleet in the Baltic Sea.

The Federal Government has decided not to send a Minister to Washington.

The King is about to send an envoy to Washington to make a new postal treaty.

DUBLIN, July 15.—Reports from the County of Mayo and the adjoining District of Connemara, represent the destitution and suffering among the inhabitants as in the extreme form of famine.

NEW YORK, July 16.—The Anglo-Indian Telegraph Company is organizing with a capital of one million pounds, for a line of telegraph by the overland route with extension to India, Suez, Singapore, China and Australia.

MEXICO.

NEW ORLEANS, July 11.—The Mexican Consuls say that Juarez and Cabinet left for the capital on the 1st of July, and that he would be received with great pomp as the defender of the Republic.

The French Minister was peremptorily refused a passport, and forbidden to leave the country. The authorities informed him that Mexico had an account to settle with France, and if it was not promptly adjusted, Mexico would proceed against the property of all French subjects in the Republic.

CANADA.

OTTAWA, July 2.—Lord Monck announced that the Queen had conferred the Order of Knight Companion of the Bath on John A. McDonald.

CALIFORNIA.

SAN FRANCISCO, July 6.—The *Bulletin* of this evening says the movement for a convention at Sacramento to be held on the 16th for the purpose of substituting three or four suitable names for those of the offensive candidates on the Union State Ticket, is the subject of very general discussion. It is regarded as a legitimate effort within the organization to strengthen the party, and the only means that now remains for removing the incubus that depresses the Union cause in this State.

The Savage Mining Company have declared a dividend of $300 per foot, payable on and after Monday, the 8th inst. This dividend, $210,000, is one of the largest disbursements by the company.

The Union Insurance Company have declared a dividend of 6 per cent. for the quarter ending June 30th, equal to 2 per cent. per month on their capital of $750,000, amounting in the aggregate to $45,000, payable on and after the 10th inst.

DIED.

At the Royal Columbian Hospital in this city, on the 18th inst. George Hazelwood, a native of Yorkshire, England aged 28 years.

If you wish to buy very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

"HE REMEMBERED THE FORGOTTEN" was beautifully said of Howard the philanthropist. It also applies to every man who brings the ameliorations, comforts and enjoyments of life within the reach of persons and classes who are otherwise deprived of their advantages. Especially may it be said of him who laboriously seeks and finds new means of preserving health, "the poor man's capital and the rich man's power." We think this eulogium properly applied to J. C. Ayer, of Lowell, the renowned chemist of New England who, spurning the trodden paths to fame, devotes his entire abilities and acquirements to the discovery of Nature's most effectual remedies for disease. When the hidden blessing has been revealed, he proceeds to supply it to all mankind alike, through our druggists at such low prices that poor and rich may alike enjoy its benefits. *Journal and Enquirer, Portland, Me.*

HOLLOWAY'S PILLS.—Dyspeptic Disorders.—Most of the diseases of the digestive organs consist in a weakness of the affected parts, causing a deficiency of the bile or gastric juice. These Pills re-establish the right performance of these functions, and thus triumphantly restore and renovate appetite, digestion, and health. Holloway's Pills perpetually present cures of chronic indigestion and its attendant maladies, that can hardly be relieved, and certainly that never were cured by any other means, medicinal, dietitic, or otherwise. They are admirably adapted for every class and every constitution. Holloway's Pills cannot be equalled for the purifying, soothing, and regulating powers they exercise over all diseases of the digestive, mucous, and muscular systems, and they are peculiarly efficacious in nervous debility.

LOUIS A. GARNETT.....President and Manager,
JOHN HEWSTON, Jr.....Chemist and Superintendent.

THIS Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion.

Their charges hereafter will be as follows:—

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-eighth of one per cent. (hitherto a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,600, and one eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion 300½@600 parts gold, 4 cents per ounce.
On bullion 600½@750 parts gold, 6 cents per ounce.
On bullion 750½@940½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the mint—a half or one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN MADE IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be melted by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express.

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution.

For refining bullion under 300 parts gold, 2cts per oz.
For refining bullion from 300½@600 parts gold, 5cts. per ounce.
For refining bullion from 600½@750 parts gold, 7cts. per ounce.
For refining bullion from 750½@850 parts gold, 11cts. per ounce.
For refining bullion from 850½@940½ parts gold, 14 cts. per ounce.
The charge for coinage is one-half of one per cent., and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:—
850 par to equal Mint return, at refining charge of 14 cents.
865 par to equal Mint return, at refining charge of 11 cents.
865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. ma30 3m

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and effecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions; when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and never go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the superfluous fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To take carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes	Fistulas,	Scurvy,

AYER'S CATHARTIC PILLS.

ARE you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors — purify the blood, and let the fluids move on unobstructed in healthy courses. They stimulate the functions of the body into activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering & disease. Too much cannot be said of your pills for the cure of cutaneous diseases. After a long research, we are able to present the most present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Barnes' Magnolia Water.

A toilet delight! The ladies' treasure and gentlemens' boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for fortifying the face and person, and to render the skin soft and fresh, to prevent eruptions, and to perfume clothing, &c.

It overcomes the unpleasant odor of prespiration.
It removes redness, tan, blotches, &c.
It cures nervous headache and allays inflammation.
It cools, softens, and adds delicacy to the skin.
It yields a subdued and lasting perfume.
It cures musquito bites and sting of insects.
It contains no material injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents the hair turning grey and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or of family that does not use it.

Mustang Liniment.

Have you a hurt, child or a lame horse? Use the Mexican Mustang Liniment.

For cuts, sprains, burns, swellings and caked breasts the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, the poll evil, ringbone and weeney, the Mexican Mustang Liniment never fails.

For wind-galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped over and scalded my hands terribly. * * The Mustang Liniment extracted the pain, caused the sore to heal rapidly, and left very little scar.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., as attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaint arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may lead to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care is taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil.
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
